## CAREER SUMMARY

I am accomplished, award winning graphic designer, web designer and production artist that is looking to contribute my exceptional and diverse skills to meet your design needs.

## WORK EXPERIENCE

Walsh Design, Seattle, 1995 – January 2016

## EXCEPTIONAL SKILLS

Client management – startup businesses to international clients.

Design and production of printed materials.

Creative input for logo concepts and logo design.

Collateral design for events; all printed marketing materials including large-format graphics, social media and website page layouts using existing brand specifications.

Knowledge of HTML and CSS for updating websites.

Strong skills in working with web developers to create the most effective UX experience.

UI Experience. I have worked in a collaborative environment on many levels from design to selecting, sizing and working with images, copy and managing the production of sites.

Manager of website production – content, photo sizing, Photoshop clean-up, working with developers, working with our clients and managing the site production up to site launch.

Assisting clients through the process of updating their websites, quick response time to help clients for website related issues.

Building and maintaining social media sites for clients.
